

# Diesel Tank 12 Volt, 220 lt with lid and flow-meter

**Codice: 428/220-KC**

Complete kit on tank 220 LT. To transfer diesel. IN TOTAL EXCLUSION ADR 1.1.3.1. c. With flow-meter, 4 mt rubber hose and aluminum gun with automatic stop. With a self-priming, self-priming piston electric motor, equipped with a bypass valve and filter, brush motor powered by low-voltage DC current with intermittent loop, closed in IP55 protection class, directly flanged to the pump body. Battery cables: length 2 mt. Connections: Thread Ø 1 ". All the components are appropriately mounted on a polyethylene tank, with a filling cap with safety valve, inlets for lifting when full with forks and handles for lifting when empty. Use only with diesel: Viscosity 2 to 5.35 Cst (at 37.8 ° C) and minimum flash point (PM) of 55 ° C

<b>Allowed fluids</b>	DIESEL
<b>Capacity</b>	220 LT
<b>DIM Height</b>	750 MM
<b>DIM Length</b>	800 MM
<b>DIM Width</b>	600 MM
<b>Duty cycle</b>	30 min

<b>Entry diameter</b>	1"
<b>Exit diameter</b>	1"
<b>Flow-rate</b>	40 LT/MIN
<b>Material</b>	PLASTIC, STEEL - BODY IN CAST IRON, VANES IN PLASTIC RESIN, ROTOR IN STEEL
<b>Maximum suction height</b>	2-3 mt
<b>Multiple packing</b>	PALLET 6 PCS
<b>Not allowed fluids</b>	GASOLINE, INFLAMMABLE LIQUIDS WITH PM<55°C, LIQUIDS WITH VISCOSITY >20 Cst, WATER, FOOD LIQUIDS, CORROSIVE CHEMICAL FLUIDS AND SOLVENTS
<b>Operating temperature</b>	-20 ÷ 60 °C
<b>Origin</b>	MADE IN ITALY
<b>Real capacity</b>	195-200 LT
<b>Regulations</b>	2006/42/CE & 2006/95/CE & 2004/108/CE
<b>Single packing</b>	NOT AVAILABLE
<b>Thread</b>	1"
<b>Vertical lift</b>	12 mt
<b>Voltage</b>	12 V
<b>Working</b>	ELECTRIC
